

The **Geophone** allows a listener to hear extremely low sounds from great distances using the high tech ground probe. With this device the sound of an approaching pig will be amplified from miles away in order to help indicate where exactly the pig is striking the pipeline welds.

All tracking equipment is available for Sale or Rent. Some of the many benefits of these units are:

GEOPHONE

- Audio filtering headphones reduces noise
- Lightweight and immune to power lines and radio frequency interference
- Rugged packaging for industrial use
- Low battery indication
- Small size, easy to use
- High Efficient Noise Reducing Headphones
- Sounds great even using headphones
- Comes with Geophone, 50' Probe extension cable
- Cost effective
