

Inline offers a wide variety of Transmitters that operate by emitting electromagnetic fields at a very low frequency (between 15 and 30Hz). This makes pig-tracking transmitters safe and reliable for use in any onshore or offshore environment and any pipeline product (water, oil, gas, ammonia, carbon dioxide, etc.)

All tracking equipment is available for Sale or Rent. Some of the many benefits of these units are:

TRANSMITTERS

- Dual Power/Dual Mode
- Available in coded frequencies
- Come in Extra small for Process / Production lines with switch for selectable Codes A-B, B-C and A-C
- Tow Behind and stand-alone carriers available
- Available in all sizes to meet any time requirement.
