

The BA-2 pig is constructed of a steel mandrel body and two DC Cups™ poured from Inline's MAXITHANE™. This pig is best used for batching dissimilar liquids out of a pipeline. The two cup construction provides a tight seal between liquid compounds. The cups can be changed to different sizes depending on the specific job.

Features

- Size Range: 4' - 48"
- 2 Cups

Options

- Gauging plate
- Transmitter cavity
- Magnets

Applications

- General cleaning/proving
- Batching
- Ideal new constructions

Inline's urethane cups are manufactured from MAXITHANE®, our proprietary custom blended urethane compound which has low friction and high wear characteristics.
